TWELVE DIGIT PART NUMBER SECTION

Part numbers in this listing are arranged numerically by the second group of five digits. Please review the part number structure system below. To make finding your part easier we have included the range of part numbers on each page; simply find the page corresponding to the range in which your number falls.

Ordering Information

- Determine the finish and/or color that matches your part by checking your original installation materials or by matching the code numbers from the data plate to the material/finish codes listed below.
 - Use the code number for the material/finish you need when ordering the replacement part.
 - If the material or finish from the installation materials or data plate is not listed below, call customer service. They will give you suggestions for materials or finishes compatible with your unit.
- Example:** To order part number 40-10315-48-XXX in Almond Vinyl, the complete part number would be 40-10315-48-420.
